1. Users must follow instructions each time respirator is worn.
2. It's the wearer's responsibility to obtain a proper fit.
3. To choose the correct model/size Moldex Respirator you must fit test and user seal check.
4. If you cannot obtain a proper fit do not enter the contaminated area.
5. OSHA regulation 1910.134 (f) requires that the user must be fit tested before being assigned a respirator and annually thereafter.
6. Use Moldex Qualitative Fit Test Kit. User must be clean-shaven. Any facial hair, such as beards or long sideburns, may prevent the respirator from fitting properly.
7. Eyewear must not interfere with face to facepiece seal.
8. Re-fit test when there are any changes to the wearer's physical condition that may affect fit.

THESE RESPIRATORS ARE APPROVED ONLY IN THE FOLLOWING CONFIGURATIONS:

- RESPIRATOR COMPONENTS
  - TC-PROTECTION
  - RESPIRATOR

 CAUTIONS & LIMITATIONS

1. PROTECTION
   - N95- Particulate Filter (95% filter efficiency level) effective against particulate aerosols free of oil; time use restrictions may apply
   - A - Not for use in atmospheres containing less than 19.5 percent oxygen.
   - B - Not for use in atmospheres immediately dangerous to life or health.

2. CAUTIONS AND LIMITATIONS
   - C - Do not exceed maximum use concentrations established by regulatory standards.
   - J - Failure to properly use and maintain this product could result in injury or death.
   - M - All approved respirators shall be selected, fitted, used, maintained in accordance with MSHA, OSHA, and other applicable regulations.
   - N - Never substitute, modify, add, or omit parts. Use only exact replacements parts in the configurations as specified by the manufacturer.
   - O - Refer to User's Instructions, and/or maintenance manuals for information on use and maintenance of these respirators.
   - P - NIOSH does not evaluate respirators for use as surgical masks.
   - 1. Pull adjustment clip and strap fully below the bottom of the mask. (Fig 1)
   - 2. Place strap around neck so outside of shell is against chest. (Fig 2)
   - 3. a) Fit mask to face and pull top of strap to crown of head. Nose cushion must not be creased inside of respirator.
            b) Always use both top and bottom straps. (Fig 3)
   - 4. To tighten pull both strap tabs. (Fig 4).
   - 5. Each time user enters contaminated area respirator must be seal checked. Cover front of respirator by cupping both hands. INHALE SHARPLY. A negative pressure should be felt inside respirator. If any leakage is detected at respirator edges, tighten or adjust strap by pulling back along the sides and/or reposition respirator. Repeat until sealed properly, otherwise see your supervisor. Entry into a contaminated area with an improper fit may result in sickness or death.
   - 6. To hang around neck, pull top strap away from head, then pull mask down.

CAUTION: When changing from any model/size to another respirator, you must fit test. If used against biohazards discard immediately after removing from face and do not hang around neck.
